THE COLOUR OF ENERGY

Inspired by the Icelandic spectacle of the Aurora Borealis and subsequent research into aura energy colours, Lauren Baker presents The Colour Of Energy; a fully immersive, multi- sensory exhibition.

The collection of seven pieces, derived from research of the energy chakras, colour therapy and intuition, mix the mediums of refracted light, subtle sound and movement, unique textures and expressive digital painting.

The audience are invited to experience a metaphysical interpretation of unseen energy, both feeling and listening to the energetic vibrations of the art. The artist states, 'Everything has an energy and a frequency. We all have an energy or aura. I wish to visually and physically interpret unseen energy. These artworks are multi-sensory perceptions of energy'.
